

Steel Lockers

Flexible, modern designs that are manufactured to stand the test of time

Whatever your needs, a Brownbuilt locker will accommodate them. Brownbuilt manufactures an unmatched range of metal lockers, which combine strength and quality. The wide range of sizes and configurations make Brownbuilt lockers ideal for diverse storage applications.

Adaptability

Brownbuilt lockers can be grouped into banks for stability or placed back to back to conserve space. Multiple door configurations mean that Brownbuilt lockers can be specified to maximise your particular storage space

Durability

Brownbuilt lockers are manufactured under a quality system complying with ISO 9001 and designed with numerous features to ensure long-term durability

Finish

Brownbuilt lockers are painted using modern thermo-set powder coatings, which are more durable and scratch resistant than baked enamel. A range of standard colours allows integration into most office and industrial environments.

Brownbuilt
