Chubb safes Elements

Protect your valuables. Protect the planet.

Chubb safes Elements

Protect your valuables. Protect the planet.

Keeping your cash and valuables safe from harm is our number one priority.

The new Elements family of safes is designed to do just that. Four ranges – Air, Water, Earth and Fire – each with its own attributes.

But Chubb safes also believes in protection on a wider scale, which is why we will be making an annual donation to four environmental projects – one for each Elements range.
